GLOBAL FOOTPRINT

ATOLL Logistics is truly global in its reach, which truly has a global reach through 11 agency networks with our own partners. Together with our expansive regional footprint, our international reach is a critical factor that enables us to determine the correct operating model and build a compelling business case for each customer.

We deliver intermodal logistics and supply chain solutions, leveraging the optimal transportation mode to deliver in line with our customers' specific needs covering entire logistics solutions though across continents - we deliver timelessly and cost-effectively.

Through our established infrastructure and dynamic capabilities, we are able to integrate and customize services that enhance customer benefits and generate tangible value.

At ATOLL Logistics, 'fast moving, forward thinking' describes our passion to succeed – to be a leading, integrated logistics company that operates in the context of a global economy.

The ATOLL brand is committed to quality service, people development and excellence. We aim to demonstrate and live by a performance-driven culture, communicate transparently and exhibit a strong heritage of social responsibility. As a prudent risk taker, financial responsibility and capital efficiency is critical, as we maintain an entrepreneurial code of behaviour. In addition, support and loyalty to colleagues and sister companies drives 'TheATOLLway'.

“FAST
MOVING
FORWARD
THINKING”

A satellite view of the Earth at night, showing the illuminated continents and oceans. Overlaid on the globe is a complex network of glowing orange and yellow lines that represent global communication or data connections. These lines radiate from various points across the globe, creating a dense web of connections that spans all major landmasses.

“truly global in our reach”

Key Representation

Our Service Providers & Representation

OUR SERVICES

Our combination of preeminent supply chain management skills and extensive, modern resource base of transportation, best-of-breed technology systems, warehousing and storage enables us to anticipate industry dynamics and heighten competitiveness. We are able to up- or downscale our range of services in line with each customer's logistics and shipping needs.

Subscribing to a flexible business model, we deliver transportation, warehousing and distribution solutions, as well as freight forwarding and clearing, business process outsourcing, pragmatic consulting, advanced information technology and special services.

FRIEGHT FORWARDING & CLEARING

ATOLL Logistics is expert in handling customers goods import, export and transhipment, offering a comprehensive range of freight forwarding, customs clearance and custom brokerage services. Our operating companies employ advanced administration systems that ensure minimal administrative burden for customers, while delivering real-time information. In addition, our customs clearing professionals not only negotiate with customs on our customers' behalf, but deliver transparent reporting.

SEAFREIGHT

We offer you a trusted transportation solution,. As a multi service provider, we offer a full range of services that includes 3PL, 4PL, Line Haul, multi- modal specific service , primary & secondary transport. We help our customers manage critical part of their supply chain by providing visibility and integration cross multiple enterprises. We help our customers keep a close eye on their cargo from the point the cargo is assigned to us till the cargo reaches its assigned destination. We also offer bulk value added solutions and dedicated contract transportation.

WARE HOUSING & DISTRIBUTION

ATOLL Logistics' established infrastructure provides extensive warehousing options, flexible warehousing solutions. Dedicated or shared warehousing services include bondage, terminal management, container handling, enterprise web enablement and pallet management. Our cross-docking efficiency increases delivery speed and reduces storage cost.

ATOLL prides itself on its track record in inventory management both nationally and internationally, which includes hazardous inventory and vendor managed inventory management.

Warehousing & distribution could be arranged in the city of Male or any required island whenever customer requires. This could be handled internationally also with the networks supporting of Atoll Logistics in Maldives provides us with excellent access to inter Atoll trade routes and extensive transport connectivity. Atoll Logistics is strategically positioned for freight due to 5 minutes distance to the port as well as to the key warehousing area of the trading community, from the Atoll premises.

PACKING

Packing and crate manufacturing have featured among the activities of Atoll logistics from its inception and forms an attractive element of our full-service offerings. Sensitive goods like computer hardware, high-tech equipment, machinery, precision instruments and tools need to be carefully packed in appropriate materials. Our staffs are specially trained for the said tasks. We have full control over all related processes, from the arrival of the goods in our warehouses until they are dispatched – ensuring our customers a high degree of professionalism and security. On request, we will also perform onsite packing of oversize equipment or goods requiring special packaging prior to the shipment.

AIR FREIGHT

We undertake international carriage services for all your airfreight consignments, consolidated or dedicated basis with reliable carrier renowned for their First-class service around the world

We are committed to guarantee highest quality service levels at the most reasonable price.

Atoll Logistics team is fully committed for an on time and a smooth delivery for your consignment at destination. Door to Door service available on request of the clients. We accept all type of commodities including DGR (Dangerous Goods) cargoes to any destination.

LOGISTICS MANAGEMENT

Whether a customer needs to distribute product in bulk or break-bulk, or move product from point of origin or direct-to-door step we identify the best solution. This makes our service offering flexible and cost effective. Other distribution services include sub-routing and distribution centre management. Our experienced teams across all levels ensure professional management of your shipments which in turn enables our customers to focus on their core business.

CONSOLIDATED SHIPMENT

We handle all types of cargo, from small appliances to large machines, as well as dangerous goods. Full loads are handled directly at the customer's premises. You can rest assured that your freight consignments will benefit from the standards of quality and meet right infrastructure at all times, wherever they are headed.
